

PLEASE WEAR A FACE COVERING

**Maintain a distance of 6 feet
whenever possible.**

WHAT YOU SHOULD KNOW ABOUT COVID-19 TO PROTECT YOURSELF AND OTHERS

Know about COVID-19

- Coronavirus (COVID-19) is an illness caused by a virus that can spread from person to person.
- The virus that causes COVID-19 is a new coronavirus that has spread throughout the world.
- COVID-19 symptoms can range from mild (or no symptoms) to severe illness.

Practice social distancing

- Buy groceries and medicine, go to the doctor, and complete banking activities online when possible.
- If you must go in person, stay at least 6 feet away from others and disinfect items you must touch.
- Get deliveries and takeout, and limit in-person contact as much as possible.

Know how COVID-19 is spread

- You can become infected by coming into close contact (about 6 feet or two arm lengths) with a person who has COVID-19. COVID-19 is primarily spread from person to person.
- You can become infected from respiratory droplets when an infected person coughs, sneezes, or talks.
- You may also be able to get it by touching a surface or object that has the virus on it, and then by touching your mouth, nose, or eyes.

Prevent the spread of COVID-19 if you are sick

- Stay home if you are sick, except to get medical care.
- Avoid public transportation, ride-sharing, or taxis.
- Separate yourself from other people and pets in your home.
- There is no specific treatment for COVID-19, but you can seek medical care to help relieve your symptoms.
- If you need medical attention, call ahead.

Protect yourself and others from COVID-19

- There is currently no vaccine to protect against COVID-19. The best way to protect yourself is to avoid being exposed to the virus that causes COVID-19.
- Stay home as much as possible and avoid close contact with others.
- Wear a cloth face covering that covers your nose and mouth in public settings.
- Clean and disinfect frequently touched surfaces.
- Wash your hands often with soap and water for at least 20 seconds, or use an alcohol-based hand sanitizer that contains at least 60% alcohol.

Know your risk for severe illness

- Everyone is at risk of getting COVID-19.
- Older adults and people of any age who have serious underlying medical conditions may be at higher risk for more severe illness.

IMPORTANT INFORMATION ABOUT YOUR CLOTH FACE COVERINGS

As COVID-19 continues to spread within the United States, CDC has recommended additional measures to prevent the spread of SARS-CoV-2, the virus that causes COVID-19. In the context of community transmission, CDC recommends that you:

**Stay at home
as much as
possible**

**Practice social
distancing
(remaining at
least 6 feet away
from others)**

**Clean your
hands often**

In addition, CDC also recommends that everyone wear cloth face coverings when leaving their homes, regardless of whether they have fever or symptoms of COVID-19. This is because of evidence that people with COVID-19 can spread the disease, even when they don't have any symptoms. Cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated, or otherwise unable to remove the mask without assistance.

How cloth face coverings work

Cloth face coverings may prevent the person wearing the mask from spreading respiratory droplets when talking, sneezing, or coughing. If everyone wears a cloth face covering when out in public, such as going to the grocery store, the risk of exposure to SARS-CoV-2 can be reduced for the community. Since people may spread the virus before symptoms start, or even if people never have symptoms, wearing a cloth face covering may protect others around you. Face coverings worn by others may protect you from getting the virus from people carrying the virus.

General considerations for the use of cloth face coverings

When using a cloth face covering, make sure:

- The mouth and nose are fully covered
- The covering fits snugly against the sides of the face so there are no gaps
- You do not have any difficulty breathing while wearing the cloth face covering
- The cloth face covering can be tied or otherwise secured to prevent slipping

Wash your cloth face covering after each use in the washing machine or by hand using a bleach solution. Allow it to completely dry.

SYMPTOMS OF CORONAVIRUS (COVID-19)

Know the symptoms of COVID-19, which can include the following:

Symptoms can range from mild to severe illness, and appear 2-14 days after you are exposed to the virus that causes COVID-19.

SEEK MEDICAL CARE IMMEDIATELY IF SOMEONE HAS
EMERGENCY WARNING SIGNS OF COVID-19

- TROUBLE BREATHING
- PERSISTANT PAIN OR PRESSURE IN THE CHEST
- NEW CONFUSION
- INABILITY TO WAKE OR STAY AWAKE
- BLUISH LIPS OR FACE

FEELING SICK = STAY HOME

Feeling Sick?

Stay home when you are sick!

If you feel unwell or have the following symptoms
please leave the building and contact your health care provider.
Then follow-up with your supervisor.

DO NOT ENTER if you have:

FEVER

COUGH

**SHORTNESS OF
BREATH**

PLEASE READ BEFORE ENTERING.

IF YOU HAVE

IF YOU ARE EXPERIENCING COVID-19 SYMPTOMS SUCH AS ACTIONS ABOVE PLEASE DO NOT ENTER THE FACILITY.

THANK YOU FOR HELPING US KEEP OUR MEMBERS AND STAFF SAFE.
